

Artificial Insemination (AI)

Using this feature AIT can enter AI service provided in the field in the Livestack system.

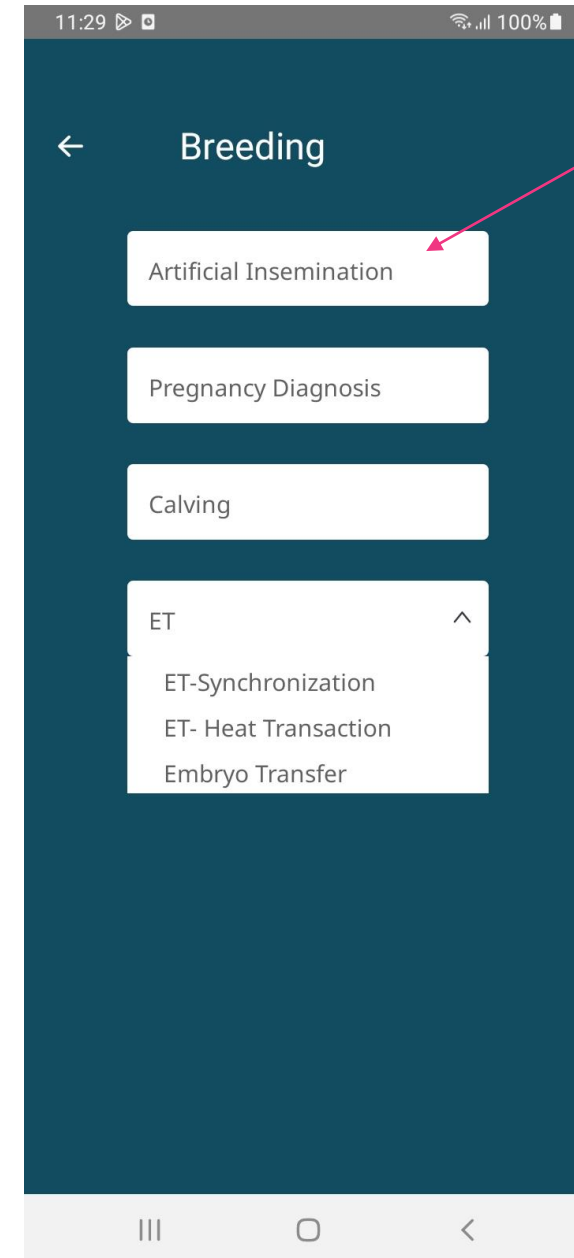

Artificial Insemination Contd..

User lands on the homepage and click on Animal Breeding services.

Artificial Insemination Contd..

User selects Artificial Insemination service under the list of services for Animal Breeding module.

Artificial Insemination Contd..

User can enter the Mobile No, Farmer Id, Farmer name, or Tag id and search it, OR can also scan the Tag id and the information of the farmer and animal will appear.

The screenshot displays the 'Artificial Insemination' app interface. At the top, the status bar shows the time 11:11, signal strength, and 92% battery. The app header is dark blue with a back arrow, the title 'Artificial Insemination', and a home icon. Below the header, the text 'Search By' is followed by a search input field containing 'Justin' and a QR code icon. A red arrow points to the search input field. Below the search field, a white box displays the search results for 'Justin timberlake'. The results include 'Owner ID : 110000000026709', 'DOB : 04/01/1982', '8765432151' (with a QR code icon), and 'Village/Ward : Marsu'. A red arrow points to the QR code icon. At the bottom of the screen, there is a dark blue 'Proceed' button with a red arrow pointing to it. The Android navigation bar at the very bottom shows the back, home, and recent apps icons.

Calving Contd..

After entering required Calving details, user will click on Calf Details or Review & Next button to move to calf details section of calving for calf registration.

Based on the number of calves, the user adds calf details.

User can either physically tag the cattle or enter a reason for not tagging the ear tag number.

On physically tagging animal, the animal is registered in Livestack.

The screenshot shows the 'Calving' app interface for a Cattle animal. The top bar is dark blue with a back arrow and the title 'Calving'. Below it are two tabs: 'Calving Details' and 'Calf Details'. The 'Calving Details' tab is active, showing 'Animal Details' as '100000010085 - Cattle - 11Y' and 'Latest Breeding History'. The 'Calf Details' tab is also visible. The 'Calf 1' section has a 'Save' button. It contains a question 'Are you physically ear tagging the animal' with 'Yes' and 'No' radio buttons. The 'No' button is selected. Below this is a text field for 'Reason for not entering Ear Tag Number *' with the value 'Refused by Farmer - Too early to ear tag'. The 'Calf Name *' field contains 'Donny'. The 'Sex *' section has 'Male' and 'Female' radio buttons, with 'Male' selected. The 'Length' field contains '12', 'Girth' contains '21', and 'Weight' contains '8.02'. There is an 'OR' option between Girth and Weight. The 'Upload Animal Image *' section has a 'select images...' button and a 'Choose' button. At the bottom are 'Cancel' and 'Review & Next' buttons.

The screenshot shows the 'Calving' app interface for a Buffalo animal. The top bar is dark blue with a back arrow and the title 'Calving'. Below it are two tabs: 'Calving Details' and 'Calf Details'. The 'Calving Details' tab is active, showing 'Animal Details' as '100000003775 - Buffalo - 4Y 1M' and 'Latest Breeding History'. The 'Calf Details' tab is also visible. The 'Calf 1' section has a 'Save' button. It contains a question 'Are you physically ear tagging the animal' with 'Yes' and 'No' radio buttons. The 'Yes' button is selected. Below this is a text field for 'Ear Tag Number *' with the value '100000002522'. The 'Calf Name *' field contains 'Meenu'. The 'Sex *' section has 'Male' and 'Female' radio buttons, with 'Female' selected. The 'Length' field contains '12', 'Girth' contains '21', and 'Weight' contains '8.02'. There is an 'OR' option between Girth and Weight. The 'Upload Animal Image *' section has a 'select images...' button and a 'Choose' button. At the bottom are 'Cancel' and 'Review & Next' buttons. A red arrow points to the 'Review & Next' button.

Calving Contd..

Entering length and girth auto calculates the weight.

User also has the option to add Genetic Defects.

After entering required details, user will click on 'Review & Submit' button to move to review page of calving.

The screenshot displays the 'Calving' app interface on a mobile device. At the top, the status bar shows the time as 12:27, signal strength, and 100% battery. The app's header is a dark blue bar with a back arrow and the title 'Calving'. Below the header, a dropdown menu shows 'Refused by Farmer - Too early to ear tag'. The 'Calf Name' field is labeled with a red asterisk and contains the text 'Donny'. The 'Sex' section has two radio buttons: 'Male' (selected) and 'Female'. Below this, there are three input fields: 'Length' (12), 'Girth' (21), and 'Weight' (8.02), with an 'OR' label between 'Girth' and 'Weight'. The 'Upload Animal Image' section is labeled with a red asterisk and includes a 'select images...' button and a 'Choose' button. Below the image upload area is a placeholder for an image. The 'Genetic Defects [1]' section has a 'Search By Keyword' dropdown. At the bottom of this section is a button labeled 'No Genetic Defect' with a close icon. The bottom of the screen features two buttons: 'Cancel' and 'Review & Next'. A red arrow points to the 'Review & Next' button. The bottom of the screen also shows the standard Android navigation bar with three icons.
